What This Tells Us

Already Has	We Do This
WordPress site he likes	Optimize existing site, don't rebuild
Calendly working well	Integrate it, don't replace
Email list on Mailchimp	Keep it, add automations
Professional photos	Use them, don't commission new
Google Business Profile	Optimize existing, add reviews
Video content	Reuse and repurpose
Testimonials	Feature prominently

Missing	We Do This
No email list	Set up ConvertKit, start collecting
No booking system	Set up Calendly
No photos	He takes phone photos, we use
No testimonials	Draft email to collect them
No Google Business	Create and optimize
No video	Start simple (phone + lapel mic)

Key Question to Lead With

"What's already working that we should keep?"

This tells us whether we're improving existing systems or building from scratch — completely different scopes.
