JW Golf — Practical Next Steps Plan

Purpose: What we can do to help James move forward without him needing his own OpenClaw setup

How We Can Help (No OpenClaw Needed for James)

1. Website & Technical

Task	Who Does It	What James Provides
Build new website	We design/build	Photos, copy approval, preferences
Set up hosting	We handle	Domain login (or we set up new)
Booking integration	We set up Calendly	His availability, lesson types, prices
Email system	We set up ConvertKit	His email if he wants access
Domain/SSL	We manage	Payment for costs

2. Content & Copy

Task	Who Does It	What James Provides
Website copy	We write	His voice, story details, approval
Blog articles	We draft	Topics, expertise, review
Email sequences	We write	His offers, availability

Social posts	We draft	His photos/videos, final approval

3. Marketing

Task	Who Does It	What James Provides
SEO strategy	We plan & execute	Access to current analytics
Google Business	We optimize	His login or we set up
Local SEO	We implement	His locations, services
Content calendar	We create	His filming/availability schedule

What We Need From James

Must Have (Before We Start)

1. **His story** — The epilepsy journey in his words (we can interview if needed)
2. **Client testimonials** — Names, quotes, handicap improvements, photos if possible
3. **Service details** — Lesson types, durations, prices, locations, availability
4. **Photos** — Professional or phone photos of him coaching, fitting, on course
5. **Current commitments** — What he's happy to share publicly about his story

Brand Preferences

1. **Logo style** — Classic/modern, monogram/icon, text-based?
2. **Colour preferences** — Any colours he loves/hates?
3. **Style** — Premium/professional, warm/friendly, bold/modern?
4. **Competitor sites he likes** — What does he admire?

Quick Wins We Can Do This Week

1. **Google Business Profile** — Claim/optimize his listing. Add photos, services, hours. *Impact: Immediate local visibility boost*
2. **Website Copy Refresh** — Rewrite homepage with "One Clear Fix" positioning. *Impact: Better conversion*
3. **Lead Magnet** — Create "5 Common Swing Faults" PDF + email capture. *Impact: Start building email list*
4. **Social Media Foundation** — Audit profiles, create consistent branding, draft 10 starter posts. *Impact: Ready to post consistently*
5. **Testimonial Collection** — Draft email asking happy clients for testimonials. *Impact: Social proof for website*

Questions for James (Prioritised)

High Priority

1. **How comfortable are you sharing your epilepsy story publicly?**
   Full website feature? Brief mention? Not at all?
   This shapes the entire brand positioning
2. **What's your current booking system?**
   Calendly? Phone/email? Something else?
3. **What's your biggest pain point right now?**
   Not enough leads? Wrong type of clients? Too low pricing? No online presence?
4. **Who is your ideal client?**
   Beginners? Mid-handicappers? Low handicappers? Juniors? Adults?
5. **What do you charge now? What would you like to charge?**

Implementation Roles

James Does	We Do	Shared
• Films video content (phone is fine)	• All technical setup and maintenance	• Strategy sessions (monthly check-ins)

• Approves all copy before publishing • Provides photos, testimonials, story • Does in-person coaching • Manages his calendar/availability	• Website design and development • Copywriting (drafts for approval) • Marketing strategy and execution • SEO and local optimization • Email marketing setup	• Content planning (what to create next) • Reviewing analytics (what's working)

First Session Action Plan

In Your Meeting with James:

1. **Gauge comfort with the epilepsy story** — If fully comfortable → We lead with it. If hesitant → We mention briefly.
2. **Get his ideal client clarity** — This determines all messaging.
3. **Understand his pain points** — Not enough clients → Lead gen focus. Wrong clients → Brand positioning focus.
4. **Collect what you can** — Photos on his phone, testimonial contacts, current pricing.
5. **Set expectations** — We do the heavy lifting. He approves everything. No OpenClaw setup needed.

After the Meeting:

1. Send us the notes — We'll create a prioritized action list
2. We'll draft the key content — Homepage, About page, service descriptions
3. He reviews and approves — Simple email approval process
4. We build the prototype — 2 weeks from approval
5. He reviews prototype — One round of revisions
6. We launch — On free hosting initially, paid when ready

Ongoing Support Model

Weekly (We Do)	Monthly (We Do)	As Needed (James Does)
• Draft 3-5 social posts • Write 1 blog/article • Monitor analytics • Respond to technical issues	• Strategy review • Content planning • SEO optimization • Performance report	• Provide new photos/videos • Approve content • Share testimonials • Give feedback

Success Metrics (3-Month Check)

Metric	Current	3-Month Target
Website visitors/month	?	500+
Email list	0	100+
Booking inquiries/month	?	10+
Google Business views	?	200+/month
YouTube subscribers	?	100+
Average lesson value	£50	£70+

Budget Reality Check

- Hosting costs: £0-20/month
- Email platform: £0-15/month (free up to 1000 subscribers)
- Domain: £10-15/year
- Photography: £0 (use phone) to £500+ (professional)
- Video editing: £0 (we do) to outsourced

Total: ~£50-100 startup, £20-35/month ongoing

Prepared for Adam's meeting with James — Bee, April 2026
