JW Golf Website Redesign

Business Development Plan for James Whittaker, PGA Professional

Version 1.0 | 30 March 2026 | Prepared for Adam Box

📊 Executive Summary

James has **three extraordinary differentiators** currently buried or absent from his website:

The Resilience Story

5 brain surgeries for epilepsy — a testament to mental toughness that translates directly to coaching

The Philosophy

"One Clear Fix" — simplicity in a world of golf instruction overload

The Credibility

50+ European Tour pros fitted, Titleist Ambassador, published writer

Business Impact Goal: Move from £40-60/hour coaching to £100+/hour premium positioning, build recurring revenue through online coaching subscriptions, and establish passive income through digital products.

1. Brand Positioning

The Core Story: "Resilience Through Clarity"

The Narrative Arc

> James faced life-threatening epilepsy requiring 5 brain surgeries. He learned that recovery happens one step at a time — one day, one exercise, one victory. He applies this to golf: you don't need 20 swing thoughts, you need ONE clear fix. His coaching is trauma-informed, patient, and focused on progress over perfection.

Why This Works Authentically

- The epilepsy story demonstrates **mental resilience** — the #1 skill in golf
- It shows he's overcome adversity most people can't imagine
- It positions him as someone who understands struggle and incremental progress
- It's inspiring without being self-pitying
- It differentiates him from every other "PGA Professional" in Yorkshire

3. What is the target monthly revenue in 12 months?

Budget & Resources

2. Has he connected with epilepsy charities before?

Immediate Priorities

1. What is the timeline pressure? Is there a specific launch date?

2. What is the biggest pain point right now? (Not enough leads, leads not converting, pricing pressure, no online presence?)
